

I would like to take a courage to share about my further prayer request with you!

It is a heart breaking to share about my hometown, where I am staying there current. It is called Tedim town, West part of Myanmar, located near the border with India.

There is a lot of fear, the heartless coup is still strengthening the innocent un-aimed locals, elders, children everywhere. At the same time, the third wave of Covid 19 virus rapidly spread in my hometown and the surrounding areas where the Chin Christians live. Since the coup took over the leading role, starting from February, up to date, more than 63 persons who are God's faithful servants, went home due to the Covid 19 outbreak. Some are even my relatives, some are my coworkers, and some, my senior ministers. (I shared the list below)

We are in between of the two dangerous such as the civil war created by the human being, and the natural disaster that is Covid 19 outbreak.

As a pastor and, a missionary, I have no more voice to cry out for the people who are in need of oxygen, who are in need of medicine, in needs of health care since the health care sector collapses due to the over control of the coup.

The vaccine is not enough for the community, the coup taken away and no one knows exactly how they spent the vaccine.

I have no energy how to deal with the bad situation of the living.

I need your helping hands to pray for me so that I can make a counseling for the peoples who are in grieve, I can comfort them in prayer in reading the Bible.

Right now, at least I can do is counseling to patients who are in isolation room, at the hospital. There are 74 critical patients in a small hospital (100bed hospital). No electric power, no enough for medication, people are dying almost every day due to Covid 19 virus. So, the remain patients are so frustrated feeling like they are alone, since they have to stay in isolation rooms. So, I pray for them, I talk to them via phone calls. So many patients want to give up, they do not dare to face so many difficulties, some family members lost their parents in one day, some they lost their family members within one week.

I have no idea why God let His people, whom He call by our names, suffer from so many dangerous, Why. Why? How can I comfort when my people are dying every single day?

Please give me strength to comfort your people, dear Lord!

Prayer items;

1. Pray for me so that I can comfort the bereaved family members who left behind.
2. Pray for me so that I can pray the patients who are in critical condition, some even lost their hope since so many senior and spiritual pastors are gone before their eyes in the hospital.
3. Pray for me so that my physical and mental health be alright in order to serve others.
4. Pray for the sick people so that they will get enough medicines and food supplements, such as Vitamin C, D, E are others medicines related to resist the Covid 19 virus.
5. Pray for the community who are in urgent needs of daily food such as rice, cooking oils and so on.

6. Pray for the new government so that the country will be restored at normal stage very soon.
7. Pray for the coup so that they will realize themselves that they are doing wrong.
8. Pray for the donation for buying the following items;

No.	Description of Equipment	Quantity
1	Oxygen tank (40Lit)	30
2	PPE	100
3	Face shield	500
4	Mask KN95	500
5	Surgical Mask	2,000

Christian Cemeteries!!

The tombs, at the front line are, prepared ahead, for the upcoming death bodies to be buried, so sorrowful!

Line up for burning the death bodies at cemetery.

Making a line for refilling their own oxygen tanks in front of a shop.

60	Pastor No Hlei Thio	Sitha, Kalaymyo		6-Jul	UPC

A small hospital is running in a very small hometown, the capacity is only 100bed, yet now 74 Covid 19 affected patients are hospitalized currently.

A building with white color is the hospital in my hometown, Tedim, Chin State

My little hometown called Tedim, Chin State.
